Summary

Enthusiastic and detail-oriented individual with a foundation in Python programming, web development using Django, and front-end technologies like HTML and CSS. Eager to leverage these skills in a Python Azure tester role, contributing to the quality assurance of cloud-based applications..

Skill Highlights

- Python
- Web Development Frameworks: Django(Basic Understanding)
- Front-End Technologies: HTML, CSS
- Data Analysis
- DBMS

Projects

Python Skills:

- **Project Name:** Python Automation Script
- **Description:** Developed a Python script to automate a repetitive task (e.g., data cleaning, file organization) using libraries like os and csv. This demonstrates your ability to write Python code for basic automation tasks.

Django Skills:

- **Project Name:** Simple Blog Application
- **Description:** Built a basic blog application using Django that allows users to create and view blog posts. This highlights your understanding of Django's framework for web development.
- **Project Name :** Django Sign Up and Log in with Confirmation E-Mail
- **Description:** Explore the world of web applications by creating email confirmations with Django. When users register or log in to your site, a confirmation email will be sent to their registered address for a safe and secure authentication process

HTML/CSS Skills:

- **Project Name:** Personal Portfolio Website
- **Description:** Created a personal portfolio website using HTML and CSS to showcase your skills and experience. This demonstrates your ability to build basic web pages with structure and styling.

Education

B.Tech (CSE): Shri Ram Murti Smarak College Of Engg. Technology , Bareilly, U.P
(7.4 cgpa till 5 sem.)

Schooling: Kendriya Vidyalaya No.2.J.L.A. Bareilly Cantt
XII-(80.8%)
X-(82.6%)

Certifications

Data Science With Python
Django Frame Work
